DESCRIPTION

The CLAR4 is a plug-in module on a corridor light or domeless room controller in an audio-visual system. The CLAR4 provides three (3) additional audio points on an audio corridor light or domeless room controller. With the CLAR4 a corridor light or six (6) point domeless room controller can support six (6) call-in stations, four (4) of which can have audio capability. The DCA216

can support sixteen (16) call-in stations, four (4) of which can have audio capability when used in conjunction with the CLAR4.
