

MODEL: R5K DESK MOUNT KIT FOR ANN PANEL

R4KDM22

FEATURES

- Adjustable brackets provide multiple viewing angle for the Annunciator Panel
- Connects directly to R4KWM22 aluminum base
- Use for single mount or multiple mount clusters
- Two kits required to mount a single R4KANNV2
- Three kits required to mount two or three R4KANNV2 clusters

SPECIFICATIONS

Each R4KDM22 contains:

- (1) Metal Support Rod
- (1) Metal Pivot Bracket
- (1) Metal Leg
- (4) 6x32 Thumbscrews
- (2) Round rubber feet

DESCRIPTION

The R4KMD22 contains the necessary hardware brackets and screws to mount to the aluminum base of the R4KWM22 Wall Mount Panel (see image above). The brackets provide a convenient method to adjust the viewing angle of the Annunciator Panel allowing it to be used on a desk or other flat surface. Multiple Annunciator Panels can be clustered together by using multiple desk mount kits. Since a bracket is not required for each Annunciator Panel when mounting the panels in clusters, the kit provides single brackets to minimize redundant hardware. Refer to

the KI-2145 R4KDM22—Installation Quick Guide for installation instructions.
