- Intuitive, standardized button positioning. Mute, closed-captioning, sleep, and option are standard on all models
- Clear, high quality sound to increase patient satisfaction
- Streamlined design facilitates quick and easy cleaning
- Can be programmed to support various hospital TV brands within seconds
- Lightweight case designed to resemble the familiarity of a home remote control
- High-impact, fire resistant UL 94V-0 plastic case
- Volume control up-down buttons
- UL 1069 Listed US/Canada

## SPECIFICATIONS

1. 8.5" (21.6 cm) long x 3" (7.6 cm) wide x 1" (2.5 cm) deep
2. A 2 1/4" (5.7 cm) diameter liquid resistant Mylar® for both nurse call intercom audio and TV audio. The pillow speaker is designed for superior voice TV audio reproduction.
3. A 9 3/4 foot flexible vinyl-jacketed cable with an 8-pin DIN plug for connection to the associated patient station and molded strain relief at both ends of the cable. when the pillow speaker cord is removed, a call will be placed to the associated Nurse Console(s)
4. An easily distinguished red Nurse Call button for placing patient calls with associated call assurance LED (Responder IV and Responder 5 systems)
5. High Reliability membrane switches for repeated use
6. For TV entertainment, the pillow speakers must be interfaced with listed digital hospital grade TVs only
7. The pillow speaker and associated cord are electrostatic discharge (ESD) shielded for protection of the nurse call system to ensure system reliability
8. Specially designed cases, cords, and buttons allow the entire unit to undergo gas sterilization without discolorization or deterioration
9. A user-friendly design makes buttons easy to find and easy to press
10. A stainless steel non-tear linen clip to position the pillow speaker within easy reach of the patient
11. Low voltage isolation compliance with the ANSI/UL 1069 requirements

**NCPDSL2 - DIGITAL PILLOW SPEAKER, 2 LIGHTS**  
**NCPSKPTV - DIRECT ACCESS PILLOW SPEAKER, TV ONLY**  
**NCPSKPL2 - DIRECT ACCESS PILLOW SPEAKER, 2 LIGHTS**

## DESCRIPTION

The Basic series of Pillow Speaker models are designed for use with the Responder 5000 nurse call systems and digital hospital grade televisions. A variety of pillow speakers are available. The pillow speakers combine in one compact unit: up to two (2) controls for room lighting, a speaker for listening to TV and nurse call audio. All models include an easily identified Nurse Call button embossed in Braille and TV control button.

When the pillow speaker is plugged into the patient station receptacle, nurse call intercom audio can be automatically transferred to the pillow speaker while simultaneously muting the TV audio.
