FS530 Battery

 A schematic diagram of the FS530 HMI CARD. It shows a rectangular circuit board with various components including resistors, capacitors, and integrated circuits. There are also circular pads and a central rectangular area. The diagram is drawn in purple lines on a white background.	M300017 FS530 HMI CARD
 A schematic diagram of the FS530 Battery Card. It shows a rectangular circuit board with a red outline. Inside, there are several red lines representing traces and a green rectangular area. The text "BATTERY CARD" is visible at the top, and "UL2" is at the bottom.	M300024 FS530 Battery Card
 A 3D perspective view of the FS530 Power connectic Card. It shows a green circuit board with several large, grey, rectangular components mounted on it. There are also smaller components and a metal bracket on the right side. The board is shown from an isometric perspective.	M300027 FS530 Power connectic Card
 A photograph of the FS530 Elastometry module V3 (v2.2A var D). It shows a green circuit board with several large, silver, rectangular components mounted on it. There are also smaller components and a central circular component. The board is shown from a top-down perspective.	M300062 FS530 Elastometry module V3 (v2.2A var D)
